

To whomever it may concern:

It was my great pleasure to work with Ceruti's Catering at their Summit Park facility for our annual Man & Woman of the Year Grand Finale Gala on April 15<sup>th</sup>, 2011. I feel very confident recommending their facility and services to anyone planning an event.

Our gala was a culmination of nine weeks of fundraising campaigns by our eight candidates; community leaders competing for the titles of Man & Woman of the Year. This black tie optional event included silent & live auctions, heavy hors d'oeuvres, an open bar and live entertainment. A lot of coordination goes into this event, attended by almost 300 guests, including many prominent doctors, attorneys, business owners and community leaders.

Joe Ceruti and his staff were very accommodating with our various needs from room layout, equipment requirements, lighting and special menu items, as many of our guests are vegetarian. And the décor services provided far exceeded our expectations!

All of our requests and questions along the planning stages were always answered promptly, and they were incredibly helpful with all aspects of planning.

We received a tremendous amount of positive feedback from our guests, adding that it was a great improvement from the locations used in years past.

We were incredibly pleased with the event, and look forward to partnering with Ceruti's Catering for many years to come for our events.

Best Regards,
